

Blisland Neighbourhood Development Plan

The Parish Council were delighted that 195 out of the 309 households in Blisland Parish

completed the survey last month; this represents a return rate of some 63% which is decently high in relation to other parishes within Cornwall who have undertaken a similar exercise.

The results of the survey will now be used to inform and evolve various development plan policies in response to the issues and opportunities raised by the community. In the interim, the collated data is available on the Blisland Parish Council website: www.blislandparishcouncil.co.uk/blisland-neighbourhood-development-plan. There will also be a display in Blisland Village Shop from 23 August where people will be invited to leave any further comments and suggestions. To sign up for regular email updates, contact news@blislandparishcouncil.co.uk.
